II. HEAVY COPYEDITING

Subject Matter Expert (Peer Review Team): We need to write about costs and other factors for specific COD and general service framework

Subject Matter Expert (Peer Review Team): Would you like to remove the US? As the title itself is self-explanatory despite the countries.

Subject Matter Expert (Peer Review Team): Will readers follow the sequence here, or would it help them if you emphasize even more clearly. Since the focus is on culture, it would interest reader if you introduce these terms. This is more important. As the law pushes both non-US firms (may be collectivists societies and US (individualist's societies). In fact, this would support our argument.

Subject Matter Expert (Peer Review Team): Since it was more generalized, we have included this sentence, as it would help readers understand how this relates to one preceding?

Subject Matter Expert (Peer Review Team): Since it's a repetition, we have removed it. Hope you will agree. Please

Subject Matter Expert (Peer Review Team): Appreciate your comments. Since it's critical, we would like to add this term. Please let us know your valuable thoughts

Subject Matter Expert (Peer Review Team): Since the readers would not follow the sequence, would it better help them if you explain why there is a need for such study. However, we have modified accordingly. Please let me know your thoughts & Check with the client as well.

Subject Matter Expert (Peer Review Team): I have modified the sentence to read better. However, you need to review before you send it to the client.

Subject Matter Expert (Peer Review Team): Too long sentence. Hence amended to read better. Review before you sends it to client

Please find the better definition as its too old.

Subject Matter Expert (Peer Review Team): Your numbers do not match with the table. Please reconcile.
