

E-Learning Content Development

E-Learning – Design & Content Development for Academic Support

E-Learning has been defined as the delivery of technology supported learning and teaching with more of an interactive process between the teacher and students based on sound pedagogical practices. E-Learning is delivered using Web, extranet, intranet, and the Internet. It is also referred to as web-based learning or Internet Based learning or electronic e Learning. However, the concept of e Learning is still an evolving discipline but due to the high penetration of internet, it has become a significant vehicle for collaborating, building knowledge and increasing organizations ability to adapt to change. e Learning based dissertation is part of many master's or doctorate degree including doctorate of Education, Hospitality management, information systems, and many other specialized subjects. The way the concept looked at would be different but more or less, all these subjects focus on how e-learning can create impact to the students and the society as a whole. e Learning from Information system, looked at the development of user friendly platforms while from education perspective, it focuses on acceptance of e Learning
