

Computer Science & IT

Computer Science (CS) & Information Technology (IT) Dissertation & Manuscript Writing, Experimental, Designing or Programming & Editing Services Help

Computer Science has been defined in many ways but in general, it's related to computers, and the systematic study of the algorithmic process (including theory, analysis, design, efficiency, implementation, and application). Computer Science (CS), is different from Mathematics, Physics, and similar classic sciences, but draws its foundation from a wide variety of discipline including computer engineering, software engineering, and information system. Further, it required utilization of concepts from many fields, and it integrates theory, and practice, abstraction (general) and design specific.

Sub-areas of computing include discrete structures, programming fundamentals, algorithm and complexity, programming languages, architectures and organization, operating systems, net-centric computing, human computer interaction, graphical and visual computing, intelligent

systems, information management, software engineering, social and professional issues and computational science and numerical methods.

Tutors India Expertise handles any kind of computer science methodology

Computer Science writers are expertise in handling different methodologies including modeling (reflecting real world scenario in a simplified model), theoretical computer science (conceptualization, modeling, analysis, data models, levels of abstractions, objects and operations – iteration, recursion & induction), build methodology (building or designing the software system, programming language, testing), process methodologies (design or construction of software system and evaluation of human-computer interaction and understanding cognitive processes), experimental computer science (theory testing & exploration) and computer simulation (investigation beyond current experimental capabilities). Our team will answer six important questions while writing the research paper, or dissertation including what is

the problem (new or known problem), what has been done by others to solve this problem, what is missing, what have been planned to do and what would be the expected outcome.

At Tutors India, in a very short time will help you refocus and prepare significant progress on your computer science and information technology masters or Ph.D. Thesis. Till now we have completed more than 5000 Ph.D.'s Thesis report and also supported for publication. We have computer science and information technology Ph.D. and Master's holders in our batch of professionals who can guide you step by step in writing your Ph.D. paper successfully. We not only spend time in a piece of writing but also make sure that you can defend your paper without any problems. Right from selecting computer science dissertation topic to phase of writing and understanding, our computer science and information technology Ph.D. professionals who are research advisors, post-doctoral fellows holding Ph.D. with rich experience in research will guide you all the way to complete and defend your computer science masters and Ph.D. dissertations successfully.

Computer science & Information technology dissertation & manuscript writing services features

We follow according to the specific university guidelines across the United States, United Kingdom, Australia, and other Asian Universities. Our part dissertation structure would consist of

Computing Services – Dissertation & manuscript writing

We undertake wide range of computer science degree that includes M.Sc., Advanced computer science, computing with digital media (domain of multimedia, 3D, 2D graphics, animation, image processing, sound processing, web-based application, tutorial applications – realists modeling of natural effects such as water or smoke), evolutionary and adaptive systems (biology, robotics, cognitive science or software agents, entertainment, pedagogical objectives using EASy methods for engineering purposes), human-computer interaction (Human-centred computer systems, intelligent systems, and information technology with business manage

ment. We focus on algorithms and complexity theory, automated verification, computational biology, foundations, logic and structures, information systems, programming language, security and software engineering.

Structure of the dissertation – Varies according to the discipline

Each discipline has its own structure, and Tutors India follows structure as per the university guidelines. For instance, in the case of HCI, in general, there are two types where the first one is the actual user-centered design and evaluation of an interactive system while the second type includes the empirical investigation of the human use of interactive technology. For the type I, has following stages, includes requirement analysis, a survey of previous approaches, system specification, implementation and testing and evaluation with the user, and evaluation. In the case of empirical investigation of interactivity, review of previous studies, design systematic empirical investigation, focusing on a particular aspect, conducting the empirical investigation on users, detailed analysis of the outcome and interpretation of the findings. Others in general, title, abstract, acknowledgment, Table of content, introduction, background, the design of the study, middle sections (system requirements, design, user perspective), testing, evaluation of

A complete secure & Confidential Service

We offer 100% confidentiality of client's personal details, payment details, project works, and copyrights of research works. We ensure following for the conditionality, security & privacy: 1) All your projects are given unique reference codes 2) Documents are accessed only writers who signed NDA with Tutors India 3) Your financial information is protected b 128-bit secure socket layer (SSL) encryption.

Fully Referenced

Our dissertation work is fully referenced with latest articles and textbooks. We refer only peer-reviewed sources such as scholarly articles and textbook to select the topic. We refer database including Web of Science, ProQuest, Google Scholar, Business Source Complete, and latest newspapers articles such as Economic Times,

Forbes, The Wall Street, The Economics to identify the industrial problem.

Our Guarantees

(1) Unlimited Revision for the work being committed. (2) We ensure on-time delivery (3) We support 24/7. (4) Our word count committed does not include references and bibliography & help you to locate the sources cited (5) Ensure three-level quality check including Technical QC, Editor QC and final check against the requirement (6) Confidentiality of the information (7) Plagiarism free work – less than 5% percent. (8) Only experienced and subject specific writers will be allotted.

Plagiarism Free Work

We are aware of the consequences of plagiarism. Hence, topic selection is completely plagiarism Free. Our work is scanned against online sources in a similar way like WriteCheck or Turnitin. We wanted to ensure that our clients i.e., researchers and students are not finding any issues with regards to plagiarism and so we issue plagiarism-free certificate*. Our streamlined and high-quality research writing process ensures your dissertation is not just copy-pasted, but written only after brainstorming sessions with our team of professional researchers.

On Time

Our work is delivered at a specified date and time. Our specific changes to the delivered work will be carried out within 45 days of delivery. We guarantee delivery of minor changes within 24 working hours and significant changes within 48 working hours. We acknowledge all your emails within 30 minutes of working hours. Further any delay in the delivery can be raised at customer-support@tutorsindia.com

Experienced Writers

Our writers have experience in research methodology, industry experience, and educational degrees from international and top-ranked universities from India, the US, and the UK. We identify the perfect SME according to your subject and area. Expert is selected through a stringent selection process including the signing of non-disclosure and confidentiality agreement. You can be very sure about the quality of the

work since expert writer is identified as per International Research Experience.

List of Universities we serve

Indian Institute of Science

University of Delhi

Jawaharlal Nehru University

University of Hyderabad

Indian Institute of Technology Kharagpur.

ABOUT US

Tutors India, is world's reputed academic guidance provider for the past 15 years have guided more than 4,500 Ph.D. scholars and 10,500 Masters Students across the globe. We support students, research scholars, entrepreneurs, and professionals from various organizations in providing consistently high-quality writing and data analytical services every time. We value every client and make sure their requirements are identified and understood by our specialized professionals and analysts, enriched in experience to deliver technically sound output within the requested

timeframe. Writers at Tutors India are best referred as 'Researchers' since every topic they handle unique and challenging.

We specialize in handling text and data, i.e., content development and Statistical analysis where the latest statistical applications are exhausted by our expert analysts for determining the outcome of the data analysed. Qualified and experienced researchers including Ph.D. holders, statisticians, and research analysts offer cutting edge research consulting and writing services to meet your business information or academic project requirement. Our expertise has passion towards research and personal assistance as we work closely with you for a very professional and quality output within your stipulated time frame. Our services cover vast areas, and we also support either part or entire research paper/service as per your requirement at competitive prices.
