Manuscript Statistics

Manuscript Textual (Qualitative) & Statistical (Quantitative) Analysis Help

At Tutors India, we assist for Statistics, Biostatistics & Qualitative Analysis (Content & Thematic) – Statistical Consultation for Manuscript Research

Preparing a manuscript statistical report needs patience and precise data. Whether it is for medical, engineering or management, it necessarily requires preparation and statistics effects. The efficient statistical analysis provides more support for your manuscript submission. In any data analysis, it is better to do an initial descriptive and standard statistical test. A visual representation of statistical data needs to be represented as performing a statistical analysis. Tutors India provides the best assistance to get your manuscript statistics with complete satisfaction and perfection. We completely assist you in analysing your data with pre-defined statistics within your given time.

A substantial manuscript needs to have

- Ample Literature review
- Appropriate Citations
- Clear Introduction
- Enough Research questions
- Adequate Samples
- and Figures
- Methodology
- Precise statistical analysis and Techniques
- Discussion concepts

We offer our manuscript statistical consultation services to a wide range of subjects including business, management, economics, finance, psychology, medicine, life science

Tutors India is equipped with a team of experienced statisticians who can provide support in Statistical data analysis and Statistics help. We provide statistical guidance to students to finish their statistics part successfully.

Experienced researchers and statisticians are put to work to finish the statistics part. Different tools like SPSS, SAS, Excel, R, STATA, Minitab, are used. Our team of qualitative experts familiar with the grounded theory method and sampling for qualitative (intensity, deviant case sampling, stratified purposeful sampling, snowball or chain sampling, maximum variation sampling, convenience and criterion sampling. We also apply different types of content analysis including conceptual analysis (check for the presence/absence of words /concepts in the text), relational analysis (the relationship between words /concepts in a corpus), descriptive content analysis, predictive content analysis, semantic network analysis, and summative content analysis. We utilize various computer programs to facilitate enumerative content analysis Wordstat, T-lab and TextPack, and second generation qualitative data management software including Atlas-ti, MAXQDA & Nvivo.

Manuscript Statistics & Textual Analysis Services – Guaranteed committee approval

Our Statistics service for Manuscript statistical report (result in section) demonstrates the ability to communicate complex ideas critically, concisely, comprehensive (Covers everything), clear and logical.

A manuscript Qualitative textual and Quantitative statistical analysis Features

We follow according to the specific university guidelines across the United States, United Kingdom, Australia, and other Asian Universities. Our part dissertation structure would consist of

Data compiling and recoding

Creating data entry format in excel, exporting data into SPSS or any software, labelling, checking for normality, missing data, data entry errors, outliers checking using appropriate analysis.

Manuscript Statistical Data analysis help

Although there are several ways of analysing data, usual format starts with descriptive statistics (mean, standard deviation, minimum, maximum, range, standard error of the mean, confidence interval) of the socio-demographic variables (age, sex, occupation, income, marital status) and followed by the reliability of the composite scores. Further, the data analysis is focused on hypothesis testing using appropriate statistical tools

Manuscript Interpretation of statistical output

The output provided in any software will be exhaustive, and it is not necessary to interpret all the numbers. At Tutors India, we interpret the data that are relevant to the thesis and make sure you completely understand the output. If not, we are here to provide the statistical help that you are looking for.

Presentation of Tables and Figures

At Tutors India, the presentation of statistical output for the Statistical Data analysis and Ph.D. thesis data analysis follows the journal format and apply appropriate interpretation not only based on numbers (quantitative expression) but also qualitatively including commenting your research methodology strength and Limitations.

Qualitative Manuscript Analysis Help

Avail our qualitative text analysis service in which, we assist in analysing your textual data using NVIVO software and also through Thematic analysis approach.
